

FSI B31

LOW MAINTENANCE

The hydraulic drive of the cutting head eliminates the need for daily maintenance as there are no V-belts to adjust or replace, reducing operating costs and time spent in the workshop.

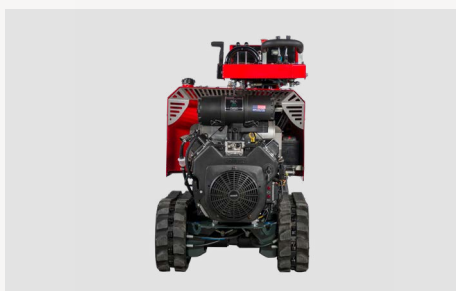

BIG SWEEP

Avoid repositioning the machine with the big sweep of the FSI B31. With two hydraulic cylinders and covering 120 cm in one sweep.

FULL VIEW

The swing-out operator panel provides an exceptional view of the working area and places all necessary controls conveniently within reach.

ALL ACCESS

Go where others can't, with this extremely narrow stump cutter. Enhanced stability and manoeuvrability thanks to counter-rotating tracks and a low centre of gravity.

STABLE TRANSPORT

Easily accessible lashing and lifting points for fast and secure transportation.

FSI B31

TECHNICAL DATA

ENGINE

Engine size	19.8 kW / 26.5 hp
Engine type	Kohler ECH749
Cooling medium	Air
Fuel type	Petrol
Tank capacity	25 l

CUTTING HEAD

Diameter	467 mm
Tooth system	FSI 25 - 3 x rotatable
No. of teeth	8
Cutter wheel drive	Direct hydraulic drive with soft-start valve
Sweep system	Hydraulic Sweep

CUTTING RANGE

Above ground level	68 cm
Below ground level	40 cm
Sweep width	120 cm
Max cutting depth	3.6 cm per sweep

OPERATION

Control panel:	90 dgr. Turnable
LED-worklight:	Standard
Hourmeter	Standard

DRIVE SYSTEM

Ground drive:	Counter rotating tracks
Brake:	Automatic, build into hydraulic drive motors

DIMENSION

Length	2280 mm
Width	740 mm
Height	1155 mm
Weight	660 kg
